

Borumba Pumped Hydro Project

Monthly Works Update

June 2026

Key works

As part of exploratory works interim civil activities will commence on site from mid-June. Works will initially focus on mobilisation, site establishment, access improvements and early civil works across the project site.

Residents may notice an increase in vehicle movements, including delivery of some large plant and equipment via Kilcoy Murgon Road, Bella Creek and Yabba Creek Roads as works get underway.

Kilcoy mobile office dates

Our Stakeholder Engagement, Communities and Legacies Team will be in Kilcoy for mobile office sessions at the Kilcoy Visitor Information Centre, 41 Hope Street, Kilcoy.

Tuesday 16 June 9:00am – 3:00pm

Please feel free to drop in or arrange a meeting via 1800 433 939 or borumba@qldhydro.com.au.

About the Borumba Project

The proposed Borumba Pumped Hydro Project is a long-duration energy storage project being developed at Lake Borumba and surrounding areas between Imbil and Jimna, west of the Sunshine Coast.

The Borumba Project is designed to capture and store excess electricity and then return that stored energy to the electricity grid when it is needed. This would help support reliable electricity supply for Queensland homes and businesses.

Industry briefings

Queensland Hydro will be holding industry briefings in May for businesses interested in upcoming opportunities on the Borumba Pumped Hydro project:

- **Online – Tuesday 16 June** – via www.qldhydro.com.au/events

For RSVPs or further information, please contact us at borumba@qldhydro.com.au or on 1800 433 939
